SAI MANIDEEP SANGANABHATLA

saimanideep00@gmail.com | +91 8247617481 | Hyderabad, India

I am interested in technology and want to learn more about it. To do this, I want to enroll in a university that places a significant focus on innovation and experimentation and that can provide me with a challenging atmosphere where I can learn, develop, and succeed.

Education

Bachelor of Engineering
Computer Science and Engineering
Chaitanya Bharathi Institute of Technology(A),
Hyderabad **CGPA: 7.49/10**
August 2016-September 2020

Telangana Board of
Intermediate Education
Alphores Junior College, Karimnagar
Percentage: 98.6%
June 2014-April 2016

SSC, Class X
ACE High School, Jagtial
GPA: 9.8/10
June 2013-April 2014

Skills

Python, Java, C, HTML, CSS, Javascript,
Node JS, MySQL, Oracle,

Work Experience

Software Engineer
Cognizant Technology Solutions Corporation
November 2020 – December 2022
Worked as a member in a project based on Coupa software. Solved many tickets raised by various users and also helped the team members in solving many issues.

Software Engineering Intern
Oakmont RSM Private Limited, Hyderabad
January 2020 - July 2020
As a backend java developer, I have actively participated in the coding effort of the team to build a web portal useful for the company website.

Projects

Sanofi Project
Cognizant Technology Solutions Corporation
In this project our team will get various tickets from different users of Sanofi products based on Coupa software. We divide these tickets among ourselves and solve those tickets in an efficient way

Student Pass Rate Prediction
Academic Major Project

As part of my course curriculum, I have built a Machine Learning model using Decision Tree and Support Vector Machine algorithms. This model will analyze the previous data of the student and predicts whether a student will pass or fail in the examination.
